Fund Sources Affected PRO PRO PRO PRO Affected Ch. 20 Appropriations SEG-S Assumptions Used in Arriving at Flacel Estimate: This bill authorizes a school board, or independent hearing panel or independent hearing officer authorized by the school board to make expulsion decisions, to impose one or more early reinstatement conditions under which a pupil who is expelled from school may be reinstated to school before the end of the term of his or her expulsion. The bill contains a provision that silows a school district administrator or a principal or a teacher designated by the school district administrator to revoke a pupil's early reinstatement. If further establishes a procedure for notification and provides an opportunity for a conference with the pupil or the pupil's parents or guardian. By allowing specific personnel to revoke a pupil's reinstatement, the bill has the potential for cost savings for local districts. In many cases, this provision would eliminate the necessity for a full expulsion hearing and all associated expenses. Since the 1991-92 school year, the number of Wisconsin students expelled has risen from 405 to 1,299 in the 1997-98 school year. It is unknown how many, if any, of these expulsions would have been subject to early reinstatement and subsequent revocations of reinstatement as allowed under this bill. Any costs or cost savings to school districts resulting from early reinstatement conditions or conferences are therefore indeterminable. There is no state fiscal effect as a result of this bill.
